

Important Information Seal-Trim[®] Changes on RoHS Compliant Parts

Johanson Manufacturing Corporation would like to call your attention to the fact that all of the newly launched RoHS compliant Seal-Trim[®] units **DO NOT** have any part number identification markings. Package labels will be clearly marked with the part number.

How to Identify the Rotor Terminal

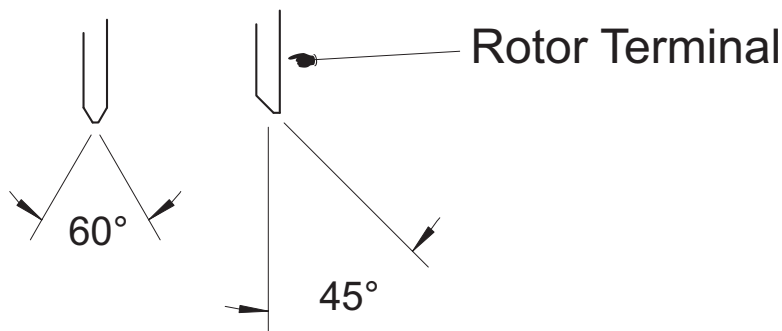

9810 Series

The rotor terminal has a round end.

9820 Series

The rotor terminal has a 45° cut at the end.

Please pass this important information along to your receiving, engineering, quality and production departments. If you have any questions or require additional clarification, do not hesitate to contact the factory.
